EXPLANATIONS

Column 1 - Self-explanatory.
Column 2 - See document entitled "Glossary of Related Terms".
Column 3 - The total funds(town and school district) raised by property taxes to provide voted services. These assessment figures are provided by the Department of Revenue Administration.
Column 4 - That part of the amount in Column 3 which is raised by property taxes for school purposes. Figure is listed in budget reports(MS 22 or MS 23) as "District Assessment" and in many cases will have been adjusted by the Department of Revenue Administration.
Column 5 - This is the amount of money designated as the school portion of the Return of Revenue to Cities and Towns(see "Glossary of Related Terms") under RSA-31-A.
Column 6 - Derived by subtracting Column 5 from Column 4.
Column 7 - The total town or city tax rates per $100 of assessed property valuation as determined by the Department of Revenue Administration converted to rates per $1000 of property valuation for the purpose of this report. Actual town or city tax rates have been used. In a few cases the assessed valuation of a school district differs slightly from the valuation of the town or city due to property "Set-offs" from one town or city to another. All assessed valuations reported in this study are those applicable to school districts. Total tax rates computed from the data appearing in this report will not precisely agree with the total tax rates listed here, due to mathematical rounding of and conversion to rates per thousand.
Column 8 - School tax rates have been converted to rates per $1000 and are derived by dividing Column 6 by Column 2. See explanation of Column 7.
Column 9 - Derived by dividing Column 6 by Column 3.
Column 10 - See "Glossary of Related Terms" for definition of equalized valuation. See also explanation of Column 7.
Column 11 - Derived by dividing Column 3 by Column 10.
Column 12 - Derived by dividing Column 6 by Column 10.

EXPLANATIONS

Column 1 - Self-explanatory.
Column 2 - See document entitled "Glossary of Related Terms".
Column 3 - The total funds(town and school district) raised by property taxes to provide voted services. These assessment figures are provided by the Department of Revenue Administration.
Column 4 - That part of the amount in Column 3 which is raised by property taxes for school purposes. Figure is listed in budget reports(MS-22 or MS-23) as "District Assessment" and in many cases will have been adjusted by the Department of Revenue Administration.
Column 5 - This is the amount of money designated as the school portion of the Return of Revenue to Cities and Towns(see "Glossary of Related Terms") under RSA-31-A.
Column 6 - Derived by subtracting Column 5 from Column 4.
Column 7 - The total town or city tax rates per $100 of assessed property valuation as determined by the Department of Revenue Administration converted to rates per $1000 of property valuation for the purpose of this report. Actual town or city tax rates have been used. In a few cases the assessed valuation of a school district differs slightly from the valuation of the town or city due to property "Set-offs" from one town or city to another. All assessed valuations reported in this study are those applicable to school districts. Total tax rates computed from the data appearing in this report will not precisely agree with the total tax rates listed here, due to mathematical rounding of and conversion to rates per thousand.
Column 8 - School tax rates have been converted to rates per $1000 and are derived by dividing Column 6 by Column 2. See explanation of Column 7.
Column 9 - Derived by dividing Column 6 by Column 3.
Column 10 - See "Glossary of Related Terms" for definition of equalized valuation. See also explanation of Column 7.
Column 11 - Derived by dividing Column 3 by Column 10.
Column 12 - Derived by dividing Column 6 by Column 10.

EXPLANATIONS

Column 1 - Self-explanatory.
Column 2 - See document entitled "Glossary of Related Terms".
Column 3 - The total funds (town and school district) raised by property taxes to provide voted services. These assessment figures are provided by the Department of Revenue Administration.
Column 4 - That part of the amount in Column 3 which is raised by property taxes for school purposes. Figure is listed in budget reports (MS-22 or MS-23) as "District Assessment" and in many cases will have been adjusted by the Department of Revenue Administration.
Column 5 - This is the amount of money designated as the school portion of the Return of Revenue to Cities and Towns (see "Glossary of Related Terms") under RSA-31-A.
Column 6 - Derived by subtracting Column 5 from Column 4.
Column 7 - The total town or city tax rates per $100 of assessed property valuation as determined by the Department of Revenue Administration converted to rates per $1000 of property valuation for the purpose of this report. Actual town or city tax rates have been used. In a few cases the assessed valuation of a school district differs slightly from the assessed valuation of the town or city due to property "set-offs" from one town or city to another. All assessed valuations reported in this study are those applicable to school districts. Total tax rates computed from the data appearing in this report will not precisely agree with the total tax rates listed here, due to mathematical rounding of and conversion to rates per thousand.
Column 8 - School tax rates have been converted to rates per $1000 and are derived by dividing Column 6 by Column 2. See explanation of Column 7.
Column 9 - Derived by dividing Column 6 by Column 3.
Column 10 - See "Glossary of Related Terms" for definition of equalized valuation. See also explanation of Column 7.
Column 11 - Derived by dividing Column 3 by Column 10.
Column 12 - Derived by dividing Column 6 by Column 10.

PRELIMINARY COSTS PER PUPIL FOR PURPOSES OF TUITION, 1987-88

Based Upon 1986-87 Expenditures as Reported by School Districts

The estimated state average costs per pupil for 1986-87 were established in February 1987 at $2822 per pupil for elementary grades, $3103 for approved middle/junior high grades, and $3628 per pupil for high school grades.

In accordance with Chapter 193, Section 4 and Chapter 194, Section 27, RSA, the liability of sending districts without contracts for the tuition of pupils shall be the current expenses of operation of the receiving districts, as estimated by the State Board of Education for the preceding year. The current expenses of operation of New Hampshire school districts for the preceding school year (1986-87) are listed below.

The current expense of operation includes all costs except those for transportation, capital outlay, debt obligations, and a deduction for food service revenue, provided that to the above may be added a rental charge of 2% of the capital costs of school facilities as may be defined by the State Board of Education.

THESE PER PUPIL COSTS RELATE TO TUITION LIABILITY FOR THE YEAR 1987-88 AND DO NOT INCLUDE ANY 2% RENTAL CHARGES.

*Denotes Middle School

NOTE: The above per pupil costs for instructional organizations (elementary, middle/junior, and high school) will reflect reality to the extent of the accuracy with which district expenditures were assigned to each level. When comparing costs of one school district with costs of another school district, or when comparing year to year costs within the same district, the K-12 cost is the most reliable figure to use.
Also note, the above high school costs per pupil have been adjusted for vocational-technical students.
